

New in stock; Selling forward

controls.

It's nice to rest your feet and at the same time have the opportunity to control gear and brakes without move the legs.

The original controls will not be affected by the forward controls.

My set has now been used more than 70 000 Km.

I seldom use the original pedals anymore 😊 I have therefore made for sale. The main parts, those that become visible, are in polished stainless steel, also most of the rest is stainless.

Will fit all Valkyrie Std/T 1997-2003, Also as far I can see the IS if you cut away the air inlet which is under the motor bracket.

NOK4000 + ship

It needs to be drilled two holes in the gear/brake pedal arms.
